- What do you think of the idea of a Tripadvisor-like site, but for imaging facilities?
- What gives you the worst headache as core facility worker?
- What do you really like about working in a core facility ?
- Would virtual (remote) attendance help with meeting attendance limits?
- Should we push for alternate success metrics for core personnel tied to the core success (number of users, groups, publications by users, up-time, utilization)?
- Does anybody use OMERO with scripts to evaluate maintenance measurement?
- How about a brainstorm session about facility evaluation strategies: user trainings/ unit time, response time, #manuscripts, MSc, PhD theses, device complexity?

What do you think of the idea of a Tripadvisor-like site, but for imaging facilities?

0 2 3

Good idea, it could help!

I don't have any opinion

Bad idea, it would create more problems!

What gives you the worst headache as core facility worker?

016

inadequate

immersion oil everywhere

personnel

broken

demanding

users instruments

high too little time

funding

technologysample hiring

people keeping good

papers

administrative issues

important expensive

What do you really like about working in a core facility ?

011

Would virtual (remote) attendance help with meeting attendance limits?

009

Yes

No

in some cases

Should we push for alternate success metrics for core personnel tied to the core success (number of users, groups, publications by users, up-time, utilization)?

0 1 1

Yes

No

no opinion

Does anybody use OMERO with scripts to evaluate maintenance measurement?

0 2 1

Yes

No OMERO in our CF

No, we run OMERO without maintenance scripts

How about a brainstorm session about facility evaluation strategies: user trainings/ unit time, response time, #manuscripts, MSc, PhD theses, device complexity?

020

great idea

fine

not interesting
