Review of the current meeting

Michael Kozubek gives a summary of this year's meeting. There had been 419 participants and 49 companies. The gender ratio male/female is 3/1. Only a quarter of the participants are female. Overall the steering committee members appreciated the organization of this year. Mild complaints from the vegetarians regarding the food (lunch box) at the first day.

Upcoming meeting in 2020

Dorus Gadella gave a brief outlook of the upcoming meeting. It will take place 9th -12th June in Noordwijkerhout in the Netherlands. It is foreseen that the rooms will be a bit less expensive and the registration fee will be around 500 euro as this year.

- Heidelberg, Germany; Rainer Pepperkok, Ulrike Engel, Vibor Laketa, Ulrike Engel; https://www.embl.org/elmi/pdf/EMBL_2021_proposal.pdf
- Turku, Finland; Turku BioImaging Team, John Eriksson, Eleanor Coffey, Markku Saari; https://www.embl.org/elmi/pdf/Turku_2021_proposal.pdf

ELMI feedback survey 2018 meeting

The last year's meeting was well appreciated by the members of the steering committee. A big thank you to Dimitri and Peter for the successful meeting. No particular comments from the members were made regarding the meeting.

The online feedback survey of the ELMI meeting 2018 in Dubin was discussed internally by the steering committee. It confirmed the impression of the SC members that it was a very good ELMI meeting: Overall rating: 39% excellent, 51% very good, 6% good, 0% fair, 4% N/A

Miscellaneous

It was suggested to have a short financial report on the meeting from the previous year. This shall help future organizers to come to a rough budget estimate. Peter o'Toole reported that there had been a little plus for last year before taking administrative costs (in this case by the RMS) into account.
