#	COMMENTS	DATE
1	the poster session was rather challenging	6/30/2021 6:53 PM
2	Poster session organised poorly (in the future keep one person per poster and let the audience browse through the posters linked to their rooms, so it is easy to connect if you see something interesting). Also the fact the worshops needed prior registration, lost my spontabeous interest.	6/30/2021 3:53 PM
3	very good support upfront company workshop	6/29/2021 11:36 AM
4	The fact that the workshops and exhibitor presentations closed was, frankly, a big	6/29/2021 9:24 AM

	disappointment	
5	Posters were hard to find	6/28/2021 5:32 PM
6	Good for the environment to be on zoom/gathertown but not enough interactions with other attendees	6/28/2021 5:21 PM
7	I was missing the the personal interactions a lot. ELMI is typically like a school trip, unortunately it was not possible to transfer this experience to zoom.	6/28/2021 5:11 PM
8	Overall I perfer in-person conferences. But virtual enables me to attend conferences I might not otherwise attend (to limit travel), and for that reason a hybrid elmi would be nice.	6/25/2021 5:52 PM
9	Really liked the breakout rooms for the posters, wish the posters themselves had been in numerical order in the gallery, would have been much easier to find	6/25/2021 5:25 PM
10	I think that the use of Zoom webinar tools could have improved the experience of the Q&A. The poster sessions could have worked better on the gather island	6/25/2021 4:21 PM
11	Posters was a bit difficult to navigate	6/25/2021 4:12 PM
12	Amazing meeting - thank you!	6/25/2021 4:10 PM
13	I wonder if it could be possible to have WORKSHOPS with break out rooms and survey capabilities	6/25/2021 4:09 PM
14	Poster Session with 5 people in one breakout room was a bit difficult, also because the posters on the webpage could not be sorted by number. In case there is another Zoom ELMI again, maybe Gather Town is a good alternative?	6/25/2021 4:07 PM
15	I am not sure it would work, but having an equivalent of the poster session for the companies that do not run workshops could be good.	6/25/2021 3:12 PM
16	good job!	6/25/2021 3:02 PM
17	Force people to use proper microphones	6/25/2021 3:00 PM
18	Poster sessions via Zoom are unfortunately no replacement for real ones!	6/25/2021 11:51 AM
19	.	6/25/2021 11:05 AM
20	Post sessions may have worked better on gather.town	6/25/2021 11:05 AM
21	The meeting itself was to long per das	6/25/2021 11:04 AM
22	Poster session might feel more "normal" in gather town	6/25/2021 10:58 AM
23	Virtual poster sessions didn't work out for me as barely couldn't speak to presenters (as weren't in their breakout room, one more senior presenter took over most of the session etc) - however, no good idea how to do differently in an online conference.	6/25/2021 10:55 AM
24	Really didn't like zoom and prefer in person but in the circumstances it's better than no elmi	6/25/2021 10:51 AM
25	The poster session with multiple posters in a breakout room was awkward and hard to manage when multiple visitors came who were interested in different posters.	6/25/2021 10:49 AM
26	Well done for a virtual format!	6/25/2021 10:49 AM

Q2 What did you like about the event?

Answered: 54   Skipped: 40

#	RESPONSES	DATE
1	Very intersting insights into new devlopments in the fields	7/27/2021 5:09 PM
2	The talks, the people, the workshops	7/1/2021 8:41 PM
3	It was great, that we could at least meet each other despite the travel restrictions. It was also great to have people from other continents being able to attend.	6/30/2021 6:53 PM
4	Accessible. Very relevant and a great selection of talks and workshops.	6/30/2021 12:00 PM
5	I was happy that it could happen at all even if it was virtual. I actually liked the chat option because like this all questions could be answered by the speaker even if there was not enough during the talk itself.	6/30/2021 11:02 AM
6	the support with administrative/payment issues	6/29/2021 11:36 AM
7	Talks were good quality and zoom was an ok format	6/29/2021 10:28 AM
8	Informal; great community of scientists	6/29/2021 9:24 AM
9	Diversity of the talks	6/29/2021 9:08 AM
10	conten + scope of ELMI combination science + company workshops	6/29/2021 8:36 AM
11	The scientific content	6/28/2021 6:26 PM
12	scientific talks	6/28/2021 5:32 PM
13	The spirit of ELMI was transported into the virtual meeting, really very good speakers and topics	6/28/2021 5:29 PM
14	it was inspiring	6/28/2021 5:21 PM
15	It was nice to at least have the even but I really disliked the virtual format, though it was the only possible way give the situation.	6/28/2021 5:20 PM
16	interation to discuss all the topis were very good	6/28/2021 5:10 PM
17	I liked that the event had one general meeting, so I did not have to make choices about what to follow. It also made the overview better	6/25/2021 5:57 PM
18	The program and organization. The interaction at the poster session I did attend.	6/25/2021 5:52 PM
19	still very interactive	6/25/2021 5:33 PM
20	The quality of the scientific talks. The topics were very well selected. The spirit and the inspriation. Very interesting well presented company talks. O-ELMI: Outstanding - ELMI :-)	6/25/2021 5:29 PM
21	Excellent Talks, and breakout rooms at various points made it possible to socialize and meet people	6/25/2021 5:25 PM
22	Lovely group of people, great presentations and work being done by this community	6/25/2021 5:24 PM
23	I like the island a lot but not a lot of people used it	6/25/2021 5:19 PM
24	How organizers helped everybody with technical difficulties and Zoom settings.	6/25/2021 5:14 PM
25	Great selection and mix of presentations. I think it was also very nicely organized and well thought through on the basis of having it only virtuell, so also including chances of "socializing" possibilities.	6/25/2021 5:11 PM
26	The scientific program and the interactions with attendees.	6/25/2021 4:12 PM
27	I very much liked the the decision to NOT use the webinar function of Zoom. This made the meeting so much more personal and interactive than other meetings that I attended online.	6/25/2021 4:10 PM
28	Great community, great science, great people	6/25/2021 4:09 PM
29	It was super well organized, all was clearly communicated, also Debbie in advance did a	6/25/2021 4:07 PM

great job to answer all questions in advance.

30	levels of talks possibility to interact with everybody in any moment gender balance among speakers	6/25/2021 4:07 PM
31	Very friendly. As a new member I was impressed with the genial nature of everyone	6/25/2021 4:07 PM
32	Good structure. Good amount of talks.	6/25/2021 4:04 PM
33	the chance to meet and chat with colleagues again after such a long time.	6/25/2021 3:12 PM
34	The scientific content and the workshops	6/25/2021 3:10 PM
35	was great	6/25/2021 3:03 PM
36	demos worked fine and format was successful	6/25/2021 3:02 PM
37	Activities and community is awesome	6/25/2021 3:00 PM
38	The scientific content was great	6/25/2021 11:51 AM
39	Good spirit, friendly atmosphere	6/25/2021 11:06 AM
40	It was my first time attending this conference and I enjoyed very much.	6/25/2021 11:05 AM
41	Is a great organized event, congratulation.	6/25/2021 11:05 AM
42	Nice scientific talks	6/25/2021 11:04 AM
43	Great to hear amazing imaging based science and to get to know international imaging experts	6/25/2021 10:58 AM
44	Excellent speaker selection and interesting talks.	6/25/2021 10:55 AM
45	top organized and fail-proof for the first digital ELMI - well done all involved!	6/25/2021 10:55 AM
46	The choice of talks in Scientific part- great themes and even greater work presented.	6/25/2021 10:53 AM
47	The fact it at least ran	6/25/2021 10:51 AM
48	That it took place at all.	6/25/2021 10:50 AM
49	The organisation of talks	6/25/2021 10:49 AM
50	The sense of a community, more discussion and questions than in other meetings.	6/25/2021 10:49 AM
51	casual environment to learn about the latest techniques in microscopy and facility management.	6/25/2021 10:49 AM
52	Especially facility day	6/25/2021 10:49 AM
53	well organized, nice ideas to improve a digital conference (online games, aerobics…)	6/25/2021 10:48 AM
54	easy to listen to, did not have to leave my desk	6/25/2021 10:48 AM

# Q3 What could be done to improve the event ?

Answered: 46   Skipped: 48

#	RESPONSES	DATE
1	The poster session didn't work, should have been done in Gather.Town. And it wasn't so easy to meet people because most didn't go to Gather.Town (but with those who where there, I had a great time). It would have been better to make Gather.Town the default venue, with direct integration of the Zoom sessions; we did it like this in another meeting recently, and it worked really well: In the coffee breaks, people where also there and could chat to each other.	7/1/2021 8:41 PM
2	Poster session needs a different format (maybe via gather town?). The company workshops registration was closing too early. It would be good to also see the open places for workshops so one could ask for a potential sign-up even after the registration closed (I used to sneak in to workshops during the onsite events when there was still space available).	6/30/2021 6:53 PM
3	poster session	6/30/2021 3:53 PM
4	People were asked near the beginning of the meeting to keep their video feeds on during workshops but very few did. Perhaps those giving the workshops could have encouraged it too.	6/30/2021 12:00 PM
5	Virtual poster session was a bit tricky but I don't know how this could be imporved.	6/30/2021 11:02 AM
6	Company workshops simply do not work virtually	6/29/2021 10:28 AM
7	I found the website unclear, it took me time to get the link to the sessions, absence of the possibility of 1:1 chat, in general hard to get in contact with other attendees, calendal was used just by few companies	6/29/2021 10:06 AM
8	Many speakers used the laptop microphone resulting in bad audio. The speakers should use headsets, the microsphone must be near their mouth.	6/29/2021 9:42 AM
9	This was more like FOM and less like ELMI. Don't put the emphasis too much om development; ELMI is about what we discover with microscopes.	6/29/2021 9:24 AM
10	the online poster session was difficult i could not read the poster properly due to zooming in limitations. talking about them was therefore difficult	6/29/2021 9:09 AM
11	From my point of view as an attendee only, I had the impression that especially the speakers from the short talks were not aware of having only 10 min in total - not only for their presentation without discussion/questions	6/29/2021 9:08 AM
12	Availability (on demand) of talks earlier during the meeting.	6/28/2021 7:10 PM
13	In case of virtual meeting, it might be a little less dense. Also take a little longer breaks now and then as watching a screen for the whole day is quite intense.	6/28/2021 6:26 PM
14	workshops	6/28/2021 5:32 PM
15	The social activities could be improved by more interactive events.	6/28/2021 5:32 PM
16	Meeting in person as soon as it will be possible again	6/28/2021 5:29 PM
17	how to manage to get attendees to interact with each other despite using zoom. How about some 5 min random dating rounds to get to talk to a few people?	6/28/2021 5:21 PM
18	I don´t think much could be done, I just think meetings do not belong to a virtual format, but again, given the circumstances, this was the best possible way.	6/28/2021 5:20 PM
19	i would like to suggest a nw topic, sensors for microscopy and spectroscopy. Lab on chip.	6/28/2021 5:10 PM
20	I had a bit of difficulty finding the right poster information. I wasn't really able to find the posters with a specific title or number.	6/25/2021 5:57 PM
21	I had difficulty seeing all the posters I wanted to, I understand this is hard in a virtual conference. Wish the social event had more attendance.	6/25/2021 5:52 PM
22	on site with streaming of the session (to engage also students / staff in the lab. Financially nobody can afford to send all - and it should not be the director meeting other directors only)	6/25/2021 5:33 PM

23	Just in case you would need to organize another virtual meeting, I would appreciate longer breaks. Unfortunatly, I missed all the poster sessions, because I was "exhausted" from the talks and company workshops. Placing the poster sessions in the evening (or in gather town) would people give time to refresh.	6/25/2021 5:29 PM
24	Poster session gallery link in the schedule would have been helpful, and putting the posters in numerical order in the gallery.	6/25/2021 5:25 PM
25	In person and virtual option would be nice if that is possible for future events, since travel budgets don't always allow attendance even in non-COVID times	6/25/2021 5:24 PM
26	Webpage interface - nerve-racking scrolling up/down and left/right through the Session programme	6/25/2021 5:14 PM
27	Although, or maybe especially, it was a very great selection of talks, the program was very intense/tight for an online version and when you wanted to attend most of the sessions. So being behind the screen for that long it is rather tiring.	6/25/2021 5:11 PM
28	I think that the poster sessions should be improved if the event would run again remotely.	6/25/2021 4:21 PM
29	The company interaction was less then normal but this is probably due to the online format, and I don't expect this to be next year.	6/25/2021 4:12 PM
30	Do poster session on gather	6/25/2021 4:10 PM
31	Make it in person again ;) I think the online format is actually great, if one needs to balance also personal needs / funding... Maybe a hybrid event would be great, so that really everyone can join.	6/25/2021 4:07 PM
32	having more variety of image modalities and applications (i.e OCT, spatial omics etc)	6/25/2021 4:07 PM
33	Not sure	6/25/2021 4:07 PM
34	longer breaks so that we can interact with people.	6/25/2021 3:12 PM
35	The posters could have been sorted by number as found difficult to find the poster when wanting to speak to the creator.	6/25/2021 3:10 PM
36	workshops if online to be open to more peoples	6/25/2021 3:03 PM
37	Sports talk is not fascinating in between. But that's just me. I wish the workshops were recorded so that I could see the ones I missed	6/25/2021 3:00 PM
38	Longer coffee breaks, 5 mins too short for a toilet break and making a coffee	6/25/2021 11:06 AM
39	For poster presentation, can be more interactive platform, with likes, read and messages option will be great. Even an option to download the poster will be awesome. The gallery is a great option for virtual and in person conference.	6/25/2021 11:05 AM
40	- reserve more time for talks and flash talks, to avoid time delay -implement a chance to join a workshop spontaneoulsy -overview about the wokhops per time in the amount of free slots -longer breaks between sessions --> people need a screen break -shorten the online meeting itself (not longer than 6 hours per day) -social sessions inbetween during day	6/25/2021 11:04 AM
41	hope we don't need to improve the digital format - probably follow up meetings could be broadcast hybrid to reach out to those who can't attend physically.	6/25/2021 10:55 AM
42	Have it in person. Tbh networking is very hard over zoom	6/25/2021 10:51 AM
43	Meet in person.	6/25/2021 10:50 AM
44	A bit more time for some talks.	6/25/2021 10:49 AM
45	Have a better manageable poster session.	6/25/2021 10:49 AM
46	Prefer the live and real event to the online one	6/25/2021 10:46 AM

Q4 How did you perceive the level of the company workshops

Answered: 93   Skipped: 1

ANSWER CHOICES	RESPONSES	
too advanced	0.00%	0
just right	74.19%	69
too basics	6.45%	6
I did not attend company workshops	13.98%	13
Comment:	5.38%	5
TOTAL		93

#	COMMENT:	DATE
1	To fast and partly to advanced	6/29/2021 1:27 PM
2	depends on the workshop - some were just right, some too basics	6/29/2021 9:08 AM
3	between too basics and just right depending on the workshop.	6/25/2021 3:12 PM
4	Some workshops were quite good, others where more like a simple presentation... I would rather have fewer workshops, with more time for it and more interactive.	6/25/2021 11:05 AM
5	Still mostly selling workshops except some like Hamamatsu	6/25/2021 10:50 AM

Q5 What could be done to improve the company workshops ?

Answered: 31   Skipped: 63

#	RESPONSES	DATE
1	The Workshop sessions shouldn't have been ended so abruptly. As in a physical meeting, the discussions often would have continued well into the next session. After all, this is the place where I have learned more about the fine details of technology than anywhere else.	7/1/2021 8:41 PM
2	See my comments above, I was too late for the registration. Might be helpful to make this a bit more flexible.	6/30/2021 6:53 PM
3	no preregistration - just a free option to join during the meeting	6/30/2021 3:53 PM
4	Encourage more people to keep video on and ask questions	6/30/2021 12:00 PM
5	for online workshops participants should switch on their cameras, trainers with face camera as well	6/29/2021 11:36 AM
6	They are not same virtually as in person	6/29/2021 10:28 AM
7	Unfortunately it is not the same to see a lecture instead of the equipement. In some cases it worked out fine, but not for system presentation. But i think, it was no more to achieve	6/29/2021 10:23 AM
8	make them easy to access and on a 'walk-in, walk-out' basis	6/29/2021 9:24 AM
9	Andor workshop was poor	6/29/2021 8:36 AM
10	-	6/28/2021 6:26 PM
11	more general topic should be considered	6/28/2021 5:32 PM
12	Some of the workshops were not interactive and one could one asked questions at the end. Very different to prior COVID ELMIs.	6/28/2021 5:32 PM
13	it was fine	6/28/2021 5:21 PM
14	Allow asking question during the workshop, and not collecting them in the chat.	6/28/2021 5:11 PM
15	I rather prefer that the comapnies work with the academics insted of selling a product. eg , collaborrations to adapt technology to research needs.	6/28/2021 5:10 PM
16	on site - more interaction from the audience - maybe this was due to the online format	6/25/2021 5:33 PM
17	they went amazingly well given the remote situation, they should be commended on doing such a great job	6/25/2021 5:24 PM
18	Would have been nice if more could have implemented live demonstrations. This i was missing in some of them which i attented.	6/25/2021 5:11 PM
19	Was there a limit for number of participants in each session? Was it neccesay?	6/25/2021 4:13 PM
20	More interaction and camera's on.	6/25/2021 4:12 PM
21	I wonder if it could be possible to have WORKSHOPS with break out rooms and survey capabilities	6/25/2021 4:09 PM
22	I liked the company workshops, but also more workshops on other topics, such as OMERO or Quarep-Limi, which is also really interesting to hear.	6/25/2021 4:07 PM
23	being more interactive, even if it's difficult in zoom..	6/25/2021 4:07 PM
24	No comment as no comparison to previous years	6/25/2021 4:07 PM
25	Would prefer them in person (obviously not possible this year).	6/25/2021 3:10 PM
26	they had some technical problems running over zoom	6/25/2021 3:03 PM
27	connection to sepaker and teh company reps remain in the session - deeperd discussions and networking was not really possible online	6/25/2021 3:02 PM
28	Some recording	6/25/2021 3:00 PM

| 29	Make them more interactive	6/25/2021 11:05 AM
30	Have zoom link on elmi website all the emails about them got lost	6/25/2021 10:51 AM
31	More technical and teaching aspects, length would be better 90 minutes to give more time for discussions and interaction	6/25/2021 10:50 AM

Q6 What did you like in the company workshops ?

Answered: 28   Skipped: 66

#	RESPONSES	DATE
1	Most things. The size was good, small enough to chat easily, although they were unfortunately more formal than in normal meetings, i.e. no questions during the presentation.	7/1/2021 8:41 PM
2	That they were offered despite being online.	6/30/2021 6:53 PM
3	Lots of useful information	6/30/2021 12:00 PM
4	the images	6/29/2021 1:27 PM
5	n/a/	6/29/2021 9:24 AM
6	broads spectrum from tissue preparation, microscopy to software/evaluation	6/29/2021 9:08 AM
7	-	6/28/2021 6:26 PM
8	well presented	6/28/2021 5:32 PM
9	I got updated	6/28/2021 5:21 PM
10	interaction to ask questions and understand the technology	6/28/2021 5:10 PM
11	I liked the live product demonstrations. That really helps to get an idea.	6/25/2021 5:57 PM
12	discussion and new developments	6/25/2021 5:33 PM
13	the live demo where you could see the scope stage and the acquisition screen was great, possibly better than the in person approach. This approach was presumably also a lot less expensive for the companies as they did not have to transport and assemble systems. May be worth considering providing this remote live option in the future	6/25/2021 5:24 PM
14	Fitted quite well in the time and the discussions.	6/25/2021 5:11 PM
15	Very informative, and wide variety of companies.	6/25/2021 4:12 PM
16	Small numbers of participants made it more interactive, which was nice.	6/25/2021 4:07 PM
17	covering all levels	6/25/2021 4:07 PM
18	the opportunity to ask questions and see the latest methods	6/25/2021 4:07 PM
19	Got to know their new developments. Contact informations	6/25/2021 4:04 PM
20	some had clearly put a lot of efforts in organizing nice demoes, with plenty of webcams... Good job!	6/25/2021 3:12 PM
21	Got a lot of good information about the machines / software.	6/25/2021 3:10 PM
22	enough time to discuss and ask questions.	6/25/2021 3:02 PM
23	Very neat use of cameras and transition between camera and screen sharing for some.	6/25/2021 3:00 PM
24	The Bitplane workshop where participants could use the software in the cloud was excellent	6/25/2021 11:06 AM
25	the ones that actually showed the tools working, and made the tools available for interaction (Imaris and Bruker)-	6/25/2021 11:05 AM
26	Updated on new developments and interaction	6/25/2021 10:58 AM
27	nice overview of new tech/releases	6/25/2021 10:55 AM
28	small groups and interactive	6/25/2021 10:55 AM

Q7 How do you like the virtual format?

Answered: 93   Skipped: 1

| ANSWER CHOICES	RESPONSES	
I prefer in person meetings.	61.29%	57
I prefer virtual meetings.	3.23%	3
The virtual format is equal to in person meetings.	11.83%	11
Other (please specify)	23.66%	22
TOTAL		93

#	OTHER (PLEASE SPECIFY)	DATE
1	Both have advantages. I'd prefer to have both options	7/27/2021 5:09 PM
2	It was good for the presentations, because it was easy to have presenters from all over the world. But for informal conversation, it's not the same thing.	7/1/2021 8:41 PM
3	It is a good alternative also for people who would otehrwise not be able to join. In our case not the whole facility staff can go. This way (hybrid?) those people could at least participate in some talks.	6/30/2021 6:53 PM
4	I prefer in person but am often unable to attend - virtual meetings are much more accessible to working primary carers for example	6/30/2021 12:00 PM
5	virtual meetings are more easily to attend (because of time reasons and financially); but the social part get's somehow lost more likely	6/29/2021 9:08 AM
6	I prefer the format of hybrid meetings	6/29/2021 8:36 AM
7	both have their pro's, but are entirely different.	6/28/2021 7:10 PM
8	I prefer a virtual meeting but there is a need for more interaction	6/28/2021 5:21 PM
9	I attended other meeting virtually and this was fine, but ELMI is e very special experience. For me this has to be live.me	6/28/2021 5:11 PM
10	I perfer in person meetings, but virtual ones are more accessible and hence important	6/26/2021 10:13 AM
11	The virtual meeting is an opportunity for people who cannot travel that easily (family,	6/25/2021 5:48 PM

funding, time…).

12	in person with streaming of sessions	6/25/2021 5:33 PM
13	It was wonderful - in person is better but if you can't make it in person I'd prefer to participate virtually than not at all	6/25/2021 5:24 PM
14	For being virtual, it was excellent	6/25/2021 5:20 PM
15	I liked attending talks in my pajamas and on my couch. Much comfier than any chair. But in person coffee would be much better, to network and chitchat	6/25/2021 5:19 PM
16	A great alternative if travel is not posible for any reason	6/25/2021 4:21 PM
17	I like in person meetings but it would be great if in the future meetings could be organized in a hybrid manner so that people from outside Europe could participate.	6/25/2021 4:09 PM
18	Virtual meetings are no full substitute, in particular when it comes to personal interaction and networking. They can still be a good compromise however and I wouldn't mind them as an additional option in the future (e.g. when traveling is colliding with the schedule)	6/25/2021 11:51 AM
19	I prefer personal meetings, but it would be great to also offer a vritual format in case you cannot travel	6/25/2021 10:58 AM
20	I prefer in person, but due to cost and time required would not be able to attend all the meetings in person that I can attend virtually.	6/25/2021 10:49 AM
21	Virtual is more easy to participate - in the future I would appreciate to have a virtual farmat on top of the "real" meeting.	6/25/2021 10:49 AM
22	both format have their advantages	6/25/2021 10:48 AM

Q8 6. If the next ELMI could be organized as a hybrid event and you could either participate in person or virtually, what would you prefer?

Answered: 94   Skipped: 0

ANSWER CHOICES	RESPONSES	
in person attendance	65.96%	62
virtual attendance	6.38%	6
it doesn't matter	11.70%	11
Other (please specify)	15.96%	15
TOTAL		94

| #	OTHER (PLEASE SPECIFY)	DATE
1	will depend on my schedule and the location	7/27/2021 5:09 PM
2	I would prefer in person, but might not be able to, Thus, I would rather participate virtually than not at all.	6/30/2021 6:53 PM
3	If I could, I would attend in person but if caring responsibilities prevent that I would attend virtually	6/30/2021 12:00 PM
4	virtually, because my company has not enough money for several congresses per year - so I have to choose what is most important (not only of most interest for myself) - virtually I can manage by myself	6/29/2021 9:08 AM
5	mix!	6/25/2021 5:19 PM
6	If I could not travel due to family life then I would attend virtually	6/25/2021 4:21 PM
7	but optionally virtual attendance sound good backup plan	6/25/2021 4:13 PM
8	both together	6/25/2021 4:09 PM
9	Next year I would like to participate in person but I would like the option of choosing virtual for following years.	6/25/2021 4:09 PM
10	i believe it would be great to offer both. I prefer the in person meetings, but having online available means that in case one cannot travel, one can still take part a little.	6/25/2021 3:12 PM

11	I would prefer in person, but see virtual as a potential option if in person attendance is difficult/not possible for me	6/25/2021 11:51 AM
12	If I am able to travel I would join in person	6/25/2021 10:58 AM
13	I prefer in person, but due to cost and time required would not be able to attend all the meetings in person that I can attend virtually.	6/25/2021 10:49 AM
14	depend on personal situation (localization, funding, time space)	6/25/2021 10:48 AM
15	would attend virtually one year and in person the next	6/25/2021 10:48 AM

Q9 Overall, how would you rate the event?

Answered: 94   Skipped: 0

ANSWER CHOICES	RESPONSES	
Excellent	41.49%	39
Very good	41.49%	39
Good	8.51%	8
Fair	5.32%	5
Comment:	3.19%	3
TOTAL		94

#	COMMENT:	DATE
1	Again, thank you for organizing ELMI online!!!	6/25/2021 4:10 PM
2	I really did not participate nearly as much as I would have during an in person ELMI	6/25/2021 3:00 PM
3	As good as could be hoped for	6/25/2021 10:51 AM
