

Participants

Arne Seitz (EPFL Lausanne)	Joana Delgado Martins (ZMB, UZH Zurich)
Stefan Terjung (EMBL Heidelberg)	Jutta Bulkescher
Urs Ziegler (ZMB, UZH Zurich)	Linda H. Haugen
Oliver Biehlmaier (Biozentrum Basel)	Christoph Bauer
Roland Nitschke (University of Freiburg)	Ben Giepmans
Laure Plantard (FMI Basel)	Mark Hink
Spyros Goudelis (Nikon)	Igor Weber
Pasi Kankaanpää	Peter O'Toole
Paula Sampaio	Markku Saari (CIC, University of Turku, FIN)
Michal Kozubek	Karin Aumayr
Michael Sommerauer	Peter Drent
Graeme Park	Ulrike Engel
Christian Kukat	Bülent Peker (Olympus)
Kurt I. Anderson	Thomas Horn
Olivier Renaud	Sinan Yürüker
Julia Fernandez-Rodriguez	Paolo Bianchini
Britta Schroth-Diez	Andrea Mülter (Leica)
Laurent Gelman	Hellen Ishikawa-Ankerhold (LMU-Munich)
Pascal Lorentz	Richard Ankerhold (Zeiss)
Kimmo Tanhuanpää	Daniela Malide
Sandra Ritz (IMB, Mainz)	

Agenda

- **Short financial report on the 2019 meeting**
Michal Kozubek
- **Short review of the current meeting**
Peter o'Toole, RMS; Stefan Terjung
- **Upcoming meeting in 2022**
Pasi Kankaanpää
- **Status of the meeting in 2023**
Dorus Gadella
- Presentation of potential candidates for the meeting in 2024
 - No candidates, yet
- Feedback survey ELMI 2019 meeting
Please consult attached survey results
- Miscellaneous
 - Results of large Core Facilities survey started at CF session during ELMI 2019 are available
 - hybrid format of ELMI in the future?

Notes

- The meeting is recorded but will not be made publicly available. Recordings will only be used to write the minutes.
- Short financial report on the 2019 meeting from Michael Kozubek
He will send the excel sheet to Stefan Terjung so that it can be shared with future organisers
- Short review of the current meeting
 - Statistics:
 - 612 unique registrations (31 countries, 541 Europeans, 45 US&Canada, 19 Rest of the world)
 - 420 academic attendees
 - 190 company representatives
 - Approx. 300 people attending the core facilities meeting
 - Sessions have peaked around 300 participants each day
 - 100 abstracts and 71 posters
 - 42 companies supported ELMI2021
 - 28 Company hosted workshops - 101 workshop sessions in total
 - 404 attendees signed up to 1 or more workshops, 46 workshops were fully subscribed
 - Poster sessions were not optimal: multiple posters per breakout room made it difficult to discuss/moderation would have been needed.
It was suggested to try the poster session via gather town (in case of another virtual meeting)
 - For subsequent virtual/hybrid events, consider starting the talks at times suitable to allow participants in other timezones to participate better.

- Issues with breakout rooms for participants who do not have a ZOOM account. To be considered in case of for future virtual poster sessions.
- The possibility to walk by the workshops for the ones who did not manage to register in advance was missing. [RMS] There was the possibility to short term register for the workshops by email.
- Mixup of poster abstracts between alphabetical and numbered order.
- Thanks to scientific organizers, high quality of scientific talks
- Upcoming meeting in Turku 7-10 June 2022, Pasi Kankaanpää
[summary of discussion] Some sort of hybrid format will be needed in the upcoming year as the pandemic situation is still unclear. The exact amount of hybrid needs to be determined at a later time point also based on the outcome of the ongoing survey.
- Discussion about non-commercial workshops. To be discussed in a smaller group.
- Status ELMI 2023 in Noordwijkerhout (Dorus Gadella)
 - Everything on track

Action points

- Company fees equivalent to the scientific participants [Peter Drent]
- Community workshops: how to integrate them into ELMI [Roland Nitschke]
- Spyros Goudelis asking for different ways to register for sponsorship
