3	Good to get a feeling which programmes are used, can you maybe publish/make your summaries accessible? Thanks!	6/25/2021 11:32 AM
4	Anna Klemm, did give a useful insight and probably the only person who constructively added input to the session. Otherwise it was poor with no clear conclusion or recommendation other than "don't be responsible for user data". I was disappointed with this session and I am not sure the line up of people was right. Perhaps if the speakers would coordinate together and discuss before hand what they are presenting to make this more coherent, then it could be useful.	6/25/2021 11:02 AM

Q5 What could be improved?

Answered: 19 Skipped: 93

#	RESPONSES	DATE
1	Use of gather town could be more integrated in the meeting. I participated in other virtual meetings/courses where this tool worked very nicely and could stimulate networking and social interaction. I wasn't able to join all the sessions after 5 due to family duties. Would be nice to have some days starting earlier and thus finishing earlier... although i know that starting at 10 made it possible for people attending from other time zones...	7/8/2021 7:21 AM
2	The football match was missing	7/1/2021 8:43 PM
3	perhaps to include companies in this day (to some extend)	6/29/2021 11:30 AM
4	Unfortunately, I missed the lively discussion that otherwise takes place between presenters and audience. That can only take place with difficulty online. I hope next year will be better discussed again	6/29/2021 10:19 AM
5	it being online is very difficult to keep concentrated. more active questions during the talks like the polls that Marjolein mertz put in keep you attention better	6/29/2021 9:07 AM
6	I was rather confused in the beginning on where I needed to login since I did receive e-mails with a "join session" button, but the actual way to join was not with the button but through zoom. It would have been good to have the zoom link shown in some prominent place on the website.	6/28/2021 5:21 PM
7	it was really good	6/28/2021 5:05 PM
8	Workshops more hands-on.	6/28/2021 4:19 PM
9	Remove the ableist and shaming "calorie counting" event. Research is clear, this type of shaming and counting calories fails people in 95% of cases. Remove this event not based on any scientific ground.	6/25/2021 5:23 PM
10	More short breaks during the sessions.	6/25/2021 4:20 PM
11	I would have liked it if there was more talks about the future technology that was coming down the pipeline.	6/25/2021 4:10 PM
12	Engaging staff from facilities from all over the world into short meetings & workshops all year around.	6/25/2021 4:08 PM
13	Maybe few take-home messages on what the community agrees on in QUAREP-LiMi? As new facility manager, we hoped to get input on what quality controls to realize on our equipment.	6/25/2021 11:32 AM
14	Data Processing and Infrastructure was a good idea for a session, but the content was not. Should be better organized and coordinated with speakers and perhaps add speakers who could share concrete failures and successes. The session was not really constructive.	6/25/2021 11:02 AM
15	Pete's jokes	6/25/2021 10:54 AM
16	Of course in person everything works better. I missed interacting with other colleagues	6/25/2021 10:53 AM
17	Try ti interact more with the audience. For some topics it might be good to announce it before the meeting so that people can prepare. That might make the discussions a bit more fruitful and lively.	6/24/2021 3:58 PM
18	Gahtertown is fine if you already know someone, but it's not as easy to strike up a conversation if you don't.	6/24/2021 10:36 AM
19	No more crib talks, or talk about things that are of interest to everyone. I do not care how many microscopes they have or how they have to move between users. I am interested in how they manage users, how they charge, how they pay their staff.	6/24/2021 9:50 AM

14	The discussion of core principles, protocols and procedures. It is good that there is an effort to standardise a lot of methods.	6/25/2021 4:10 PM
15	Discussing common problems and how to tackle them. (see above) Thank you very much for organizing this really interesting and collegial day!	6/25/2021 11:32 AM
16	being in the US, I was glad I could join virtually. Would be great if the Core Facility session could be streamed again next year. The community is wonderful.	6/25/2021 11:10 AM
17	Facility crib talks	6/25/2021 11:02 AM
18	QC and Data Infrastructure are constant but still super important issues and will and should be continued. The question "who is satisfied with their data infrastructure?" and have those people step forward and report on their solutions, was really helpful.	6/24/2021 10:36 PM
19	surveys and sharing their results	6/24/2021 1:46 PM

#	SUGGESTED TOPIC	DATE
1	quality control, tips and tricks for various microscopy technics	7/2/2021 9:27 AM
2	Concofal and Super Resolution Microscopy	6/28/2021 5:06 PM
3	research data management	6/25/2021 4:06 PM
4	Quality Control and Reproducibility	6/25/2021 4:04 PM
5	I would like to suggest 3 topics: 1) How can a core facility help and train users effectively on super-resolution microscopy (and other special technology) projects. 2) Keeping core facility up to date with hands on experience with new technologies. 3) Collaborating with your IT to manage data and storage.	6/25/2021 11:53 AM
6	Models of CF integration within research institutions (Incl. Physical, financial and professional)	6/25/2021 11:01 AM
7	Remote Access and Training	6/25/2021 10:49 AM
8	The never ending QA & QC story, Metadata	6/24/2021 6:21 PM
9	New methodologies in imaging cores e.g. spatially resolved transcriptomics	6/24/2021 4:03 PM
10	What to do with users who insist that they have to over-saturate their fluorescence images because otherwise the images are too dim...or some other topic about training microscope users ;)	6/24/2021 12:43 PM
11	Facility daily challenges/instrument maintenance/users assistance.	6/22/2021 7:10 PM
