7	Scary but good!	6/13/2023 6:28 PM
8	I really enjoyed the case report and how they handle it... so we can think on how to protect ourselves.	6/13/2023 4:13 PM
9	especially the tools part was great!	6/13/2023 3:39 PM
10	I think this is one of the most important topics of our time	6/13/2023 1:38 PM
11	the "tools" session was great and should be extended	6/13/2023 1:26 PM
12	Very good and scary story that should teach us a lesson	6/13/2023 1:09 PM
13	The talks were very dry for first thing on the first day. Talks should be shorter and more dynamic to be engaging.	6/6/2023 4:42 PM

#	COMMENTS FOR "SESSION 2: STAFF DEVELOPMENT & TRAINING"	DATE
1	Focussed on the wrong topic. Career schemes in facilities would hav been way more important to discuss than how to train the trainers.	6/14/2023 2:50 PM
2	Something we mentioned several times, but don t seem to get going deeper into.	6/14/2023 9:01 AM
3	The audience interaction was the highlight of the section, we should listen more for inhomogeneity of the community and work on the different aspects.	6/13/2023 4:13 PM
4	I did not attend this session	6/13/2023 1:38 PM
5	You did not speak at all about development and training for staff. it was a huge disappointment	6/13/2023 1:09 PM
6	Very important subject, good discussion	6/13/2023 11:35 AM

Q5 What could be improved?

Answered: 28 Skipped: 90

#	RESPONSES	DATE
1	the panel discussions after each presentation block could be better organised, or at least be all organised in the same way. It depended very much on the moderator in charge of how this was carried out.	7/3/2023 11:27 AM
2	Show or focus on specific core facilities in Europe with flash talk !!	6/26/2023 1:21 PM
3	In some sessions the discussions got a bit too short. It would be nice to try to recapture some of the smaller scale and informal discussion from earlier core facility days.	6/23/2023 8:37 AM
4	maybe some training skill talks/workshops.	6/20/2023 4:32 PM
5	I didn't find the round table discussions very useful. Focus on practical training approaches?	6/19/2023 4:04 PM
6	increase the amount of free time to e.g. allow special sessions in the community room which were important for the community to arrange amongst each other independent of talks also attended by industry members	6/19/2023 1:58 PM
7	Academia could have won the football match....	6/16/2023 10:24 AM
8	Alternative activity for people not interested in football	6/15/2023 4:37 PM
9	There was way too much attention on data management, image formats and so on. I understand these are important topics, but we are a microscopy community, not an IT one, a couple of talks on these topics are useful, too many become just annoying.	6/14/2023 1:42 PM
10	There is a lot of potential with the panel-discussions. I know this takes time, but with more prep work there's a lot of room for improvement. The questionnaire on ICT was fun and helpful! Also the panel discussions could be prepared with talking points to get the audience engaged.	6/14/2023 10:50 AM
11	It was all great	6/13/2023 6:28 PM
12	Although GBI does an annual survey, the replies do not always represent the community's needs. Talking about the many aspects of core facilities is a complex topic, and we need to hear the community more and not only focus on topics that represented the diversity of the people working and running the core facilities.	6/13/2023 4:13 PM
13	I find "Round table discussions" at the CF day very important on one hand, but for some reason difficult on the other hand, both as organiser and member of the audience; even if I find the topic very interesting. Maybe it's the large number of participants in the big room? They rarely seem to be lively discussions. No clear solution, but ideas: Definitely not more than one in the plenary room. And maybe the others (or all of them) in the new "community room", which I'm sure will happen again, given the success. In there, discussions were much more lively, must be the size of the room. And please no more QR codes, ever! Why do I have to do a QR scan with my mobile phone and email the web link to myself before I can open it on the laptop? And pages with multiple QR codes didn't technically work with my QR app (no zoom). There are a lot of good uses for QR codes, but weblinks in presentations isn't one. At the very minimum, make sure the actual URL is written next to it. Apart from the technical difficulties, I think it would be good not to distract people by inviting them to parallel cloud servers, discussion forums etc. We've seen what's missing in the online-only world in recent years, let's keep it a full-on personal-interaction event.	6/13/2023 4:06 PM
14	Some of the panel discussion rounds seemd a bit lengthy and arbitrary.	6/13/2023 3:39 PM
15	I believe the size of the event is becoming too large, so it resembles a normal conference day. It would be great to perhaps have smaller, parallel sessions with different topics where more debate and participation may be possible	6/13/2023 3:19 PM
16	The QR codes that were shown on the slides could be printed in the bookled. You can use the page for travel information for them, I don't need those when I'm already at the venue.	6/13/2023 2:20 PM
17	Panel participants should prepare and stick to the topics at hand. While the training topic vered in an interesting direction, it once again completely neglected to talk about perspectives for facility staff	6/13/2023 1:09 PM

ELMI Core Facility Day 2023 Feedback survey.

18	Less scientific talks or more related to technology	6/13/2023 12:33 PM
19	Football match is not inclusive (1 lady for 21 men). Think of some alternative or something on top of it.	6/13/2023 12:08 PM
20	Since it was my first time on ELMI, I didn't know many other people. It would have been nice to get to know more about all the other participating core facilities to make contacts easier.	6/13/2023 12:00 PM
21	Presentation of core-facility strategies among different countries	6/13/2023 11:50 AM
22	I'm not sure about the roundtable discussions, with a big group there is a high threshold to get involved.	6/13/2023 11:42 AM
23	have more interactive sessions with feedback from audience, e.g. slido	6/12/2023 2:44 PM
24	More smaller discussions, maybe something in workshops with small groups.	6/9/2023 11:33 AM
25	poster session was too short and crowded	6/9/2023 12:19 AM
26	The microphones tended to echo very badly, making it really hard to understand certain speakers. I didn't find how to give feedback on the Gdrive before using this form. Gdrive is not such a well adequate tool for sharing documents at this	6/7/2023 10:01 AM
27	Acoustics were not great and it was difficult to follow particularly as people aren't used to using hand held microphones - remind speaker to hold microphone to face or use clip on microphones. Panel format was not enjoyable or engaging - replace with questions from the floor.	6/6/2023 4:42 PM
28	Point out more major challenges in quarep Give a few examples of collabaration	6/6/2023 11:32 AM

#	RESPONSES	DATE
1	I liked very much how in the cybersecurity talks, they gave real cases as examples and how they used the previous survey to show, in part, the lack of information in this area.	7/3/2023 11:27 AM
2	Feedback of each facility, organization of facilities	6/26/2023 1:21 PM
3	The community room was a great addition.	6/21/2023 4:40 PM
4	that there is a core meeting	6/20/2023 4:32 PM
5	Learning about new tools being developed by some facilities; to get to know so many different facilities. Getting to know about Global bioimaging.	6/19/2023 4:04 PM
6	THE (non-industry) COMMUNITY ROOM!	6/19/2023 1:58 PM
7	Learning about procedures in other facilities, networking opportunities	6/15/2023 11:57 AM
8	Like always: the open atmosphere with all the colleagues from core facilities and companies. Perfect networking option.	6/14/2023 2:50 PM
9	The round table about staff training was good, in general that is a good format.	6/14/2023 1:42 PM
10	a bit more structure, but not a lot.	6/14/2023 10:50 AM
11	Learning of impact of cyber attack was excellent, and follow on program was great	6/13/2023 6:28 PM
12	Everything... but there is always room for improvement.	6/13/2023 4:13 PM
13	Everything except the QR codes. It was great again.	6/13/2023 4:06 PM
14	the tools part	6/13/2023 3:39 PM
15	It is a great opportunity to discuss topics we all have to deal with when working at a core facility, both cyber security and training are key!	6/13/2023 3:19 PM
16	The discussions that the presentations started - we should all pay more attention to e. g. data safety or our teaching skills.	6/13/2023 2:20 PM
17	The detailed technical aspects	6/13/2023 2:10 PM
18	People making ingenious equipment that is not always that useful. I mainly was here to talk with people. This worked out very well	6/13/2023 12:21 PM

23	Practical suggestions that can immediately be used so that we do not have to invent the wheel again	6/13/2023 11:42 AM
24	General CORE facility items normally are forgotten, very good to discuss together with colleagues	6/13/2023 11:35 AM
25	I liked learning what is available	6/9/2023 11:33 AM
26	it was globally very good and nice to meet other facility members	6/9/2023 12:19 AM
27	Meeting everyone. The topics are definitely relevant and important. The podium discussion format is good but I had difficulty to understand the speakers	6/7/2023 10:01 AM
28	I really enjoyed the "round tables" because I think it is a more engaging environment.	6/6/2023 5:40 PM

Management focus, Bio focus, technical focus, others... what theses different aspects are reflected in the community needs (with a previous survey - maybe a couple of months earlier, asking the community initiatives to spread and ask to their personal to reply at least a month before the next ELMI - results presented in the beginning). Facility heads and staff are to be approached in different ways, as well as university based facilities in comparison to non-profit organizations and/or non-self sustained research centres (how is the funding to keep the facility obtained?; Do you have autonomy to hire new personnel?; These are examples of topics to be added in the survey and used to format the section...).
